The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the fact that the IAEA is cooperating in the organization of the **11th International Symposium on Naturally Occurring Radioactive Material (Organized in cooperation with the IAEA)** (hereinafter referred to as "event") to be held in **Accra, Ghana** from **13 to 17 October 2025**.

Attention is specifically drawn to the registration deadline and other dates indicated in the attached announcement for the event. Enquiries about details of the programme, registration, hotel accommodation and visa arrangements should be addressed to the organizers at the address mentioned in the announcement.

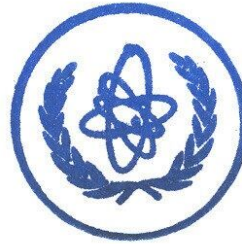

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of participants from IAEA Member States. Preference will be given to participants who are expected to make an important contribution to the event, and such assistance is limited to normally one participant per country.

Applications for financial support using the attached Grant Application Form (Form C) can only be considered if received through the competent national authority by **16 August 2025**.

Requests for further information concerning scientific aspects of the event may also be addressed to the IAEA Scientific Secretary for this event, Mr Halil Burcin Okyar of the Division of Radiation, Transport and Waste Safety (Email: H.B.Okyar@iaea.org).

Member States are requested to inform prospective participants that, if they require a visa to enter Ghana, they should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of Ghana.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew to the IAEA's Member States the assurances of its highest consideration.
