The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **Fourth Regional Exercise on Forensic Examination of Evidence and Trace Amounts of Nuclear Material from Radiological Crime Scenes** (hereinafter referred to as "event") to be held in Tashkent, Uzbekistan, from **10 to 19 August 2026**.

The purpose of the event is to develop and conduct an exercise on forensic examination of evidence and trace amounts of nuclear material from radiological crime scenes, to evaluate roles and responsibilities of specialists involved in the national response to nuclear security events involving material out of regulatory control as part of a criminal investigation, and to exercise the interaction between experts at the crime scene and throughout investigation.

The attached Information Sheet provides further details of the event.

The event will be held in English and Russian.

Member States are invited to designate one or more participants for this event. Member States are strongly encouraged to identify women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event. The application for financial support should be made via the InTouch+ platform not later than **17 July 2026**, as indicated in the enclosed Information Sheet.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

Designations should be submitted to the IAEA via the InTouch+ platform (<https://intouchplus.iaea.org>) through the competent national authority (Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) not later than **17 July 2026**, as indicated in the enclosed Information Sheet.

The Scientific Secretary of the event will liaise with the participants directly concerning further arrangements, including travel details, as appropriate, once the official designations have been received.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew to the IAEA's Member States the assurances of its highest consideration.
