The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **International Symposium on Nuclear Energy R&D: Advancements and Trends** (hereinafter referred to as "event") to be held at the IAEA's Headquarters in Vienna, Austria, from **1 to 2 December 2026**.

The purpose of the event is to provide a forum, in the context of a renewed interest in nuclear power, for exchanging information on current R&D activities, including key trends, infrastructure, and capabilities. It will help identify priority R&D areas necessary to enable next-generation nuclear technologies and assess gaps and opportunities in research infrastructure. The event will also explore pathways to accelerate the translation of research into deployment.

The event will be held in English.

Member States are invited to disseminate the attached Announcement to the target audience for the event and to designate participants using the InTouch+ platform, as indicated in Section G. Member States are strongly encouraged to designate women participants.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew to the IAEA's Member States the assurances of its highest consideration.
