Subject: Regional Workshop on Design Aspects of Advanced NPPs and Innovative Technologies, Vienna, Austria, from 24 to 28 August 2026

Dear National Liaison Officer / National Coordinator,

I am pleased to inform you, that the International Atomic Energy Agency (IAEA) is organizing the above event under the IAEA technical cooperation project RER9166, "Enhancing Safety Assessment of Advanced Safety Features of Nuclear Power Plants including Small Modular Reactors".

The purpose of the event is to bring together representatives from participating Member States to exchange knowledge and develop a common understanding of design aspects of advanced nuclear power plants (NPPs), including small modular reactors (SMRs), and innovative technologies. The workshop responds directly to the needs identified through the preparatory questionnaire, particularly in relation to limited experience with innovative design concepts, passive safety features, and new reactor configurations.

The attached Information Sheet provides further details, including technical and administrative aspects of the event. Selection of participants will be in accordance with IAEA procedures. Member States are strongly encouraged to identify women participants.

We would appreciate receiving your country's nominations by **5 July 2026** through the IAEA's InTouch+ platform (<https://Intouchplus.iaea.org>). Please be advised that late nominations or replacements of participants after the closing date for nominations will not be accepted.

We look forward to receiving your early response.

Yours sincerely,

10.06.2026

Carmina Elizabeth Jimenez Velasco
Programme Management Officer
Division for Europe
Department of Technical Cooperation
